

This is a list of parks sorted by state and city that offer one or more of the following services: Instant Phone service or WiFi. It is a good idea to contact the park before arriving as some have a limited number of sites available that offer these services. Many of the parks include Instant Phones or WiFi as part of upgraded sites and charge an additional fee. Fees vary between companies offering WiFi access so please check with the individual parks before arrival. Also, when making reservations with a park that offers WiFi you should make it clear you want a site that has WiFi access. Nothing is more frustrating than going out of your way to a park and finding that the site you have been assigned is out of range or not in coverage for the park's WiFi. **Please send all updates, changes or additions via PM to Dick A via WWW.RV.NET/FORUM. If possible also include the service provider and cost if the system is not free. Please also NOTE: We normally list parks offering WiFi access under the town of the mailing address of the park.**

UPDATED 06/10/08 BY Dick A & answerswillvary

Instant Phone = Local Phone Company Service - Usually Costs \$3.00 - \$5.00 / Day

WiFi = Wireless Network Connectivity

DSL = DSL Available at Site or in office

LinkSpot, Boingo Internet and Tango Internet . Tengo Internet & Coach Connect have not received high ratings by most RV'ers reporting to us due to connection problems and / or pricing.

Your help in providing this information would be appreciated. The following provider information is

what has been reported to me or what we have found during our travels. Please report any changes or errors.

Campgrounds are listed under the city of their mailing address.

PROVIDER INFORMATION: (Note: please report any additional information for posting here)
